
SOCCER MOM WIPES OUT BAND OF HOTEL TRASHING, FOUL-MOUTHED ROCKERS

with off switch on MP3 player.

Now you can control what
your kids watch, hear and
play. At *PauseParentPlay.org*,
we're dedicated to helping

parents make informed media choices for their kids. It's simple and
easy to use. Everything a parent needs is there. You'll find helpful
information on parental advisory labels, which are notices affixed
to audio and video recordings that contain strong language. That
way, you can keep your kids from media that's not intended for them.
So no matter how repulsive your son's favorite new band is, you'll
always have the power to fend them off.
